**Dear Attendees,
Exhibitors, VIP Guests, and Members of the Press,**

Welcome to the **inaugural T.H.E. New York International Audio Show!** We are absolutely delighted to have you join us as we bring our signature Total HiFi Experience™ to the East Coast. Whether you've been part of the HiFi community for years or are discovering it for the first time, we're honored to have you here—welcome to T.H.E. Experience!

As many of you know, **T.H.E. Show acquired the previous New York Audio Show**, and with that comes a renewed energy and vision. Our goal is to introduce the **vibrant, inclusive, and connected atmosphere** that has become the hallmark of T.H.E. Show. We're here to create something truly special—a new kind of audio event that serves not only the **Eastern Seaboard**, but also welcomes visitors, brands, and media from across the **United States, Europe, Asia, and beyond**.

Originally founded as **The Home Entertainment Show**, T.H.E. Show has evolved into something greater—**The Total HiFi Experience™**—representing a broader mission that celebrates sound, culture, and community. To us, HiFi is more than just technology—it's a way of life. It's about living fully, embracing excellence, and sharing meaningful experiences with others. That's exactly what **T.H.E. Team** strives to deliver to you at every event.

As we continue to grow, T.H.E. New York International Audio Show marks a milestone year for T.H.E. Show, having had three dynamic events across the country:

- **T.H.E. Lone Star Audiofest, Austin, TX**
- **T.H.E. Show SoCal, in Costa Mesa, CA**
- **T.H.E. New York International Audio Show, Hasbrouck Heights, NJ**

We're also proud to continue our creative expansion with **T.H.E. Film Festival**, which celebrates both home theater excellence and independent filmmaking, and **T.H.E. TV**, our upcoming Roku network bringing HiFi, music, cinema, and lifestyle programming to more than 90 million homes.

As we head into 2026, we are delighted to bring you four very bespoke HiFi experiences across the US:

- **T.H.E. Las Vegas kicking off our 30th anniversary year**
- **T.H.E. Austin**
- **T.H.E. SoCal (our flagship show)**
- **T.H.E. New York**

From inspiring seminars and live musical performances to cutting-edge exhibits and unforgettable listening experiences, we invite you to explore, connect, and be inspired. Together, we're shaping a bold new chapter in the world of HiFi.

On behalf of all of us at **T.H.E. Show**, thank you for being part of this historic weekend. Your enthusiasm, support, and passion are what make this community thrive.

Enjoy your time at **T.H.E. New York International Audio Show 2025**—and thank you for being part of **the Total HiFi Experience™**.

**With gratitude and excitement,
Emiko E. Carlin and T.H.E. Show Team**

SEMINARS

SATURDAY OCTOBER 25: 10:00 AM T.H.E. SHOW OPENS

11:00 AM	Vinh Vu Gingko Audio	MooDu DIY Speaker Kit High End on a Budget — The First DIY Speaker Kit You Can Completely Assemble in an Afternoon
12:00 PM	Leo Ayzenshtat Orchard Audio	GanFET Class-D Amplifiers
1:00 PM	William Voss Technics	Why Direct Drive? The Technics SL-1200 Story
2:00 PM	J.R. Boisclair WAM Engineering	Discoveries, Myths, and Misdirection in Vinyl Playback.
3:00 PM	Charles Kirmuss Kirmuss Audio	Record Cleaning Myths Revealed. Little study has been made as to record production and how it affects overall sound quality. Likewise, the market abounds with cleaning products and processes. An “under the hood” study reveals all. Discover how to take care of your records and best practices.
4:00 PM	Norman Varney AV RoomService	Engineered Acoustics: The Best Value in HiFi. Learn how science eliminates guesswork when it comes to room acoustics, and that acoustic treatments are usually the most important and least expensive part of the audio playback system.

EVENING EVENTS

KICK-OFF PARTY | SALON B

FRIDAY, OCTOBER 24, 2025, DOORS OPEN AT 6:30 PM
EVENT OFFICIALLY BEGINS AT 7:00 PM

Complimentary buffet dinner will be served on a first come first serve basis

GRACIOUSLY SPONSORED BY

T.H.E. CONCERT | SALON B

SATURDAY, OCTOBER 25, 2025, DOORS OPEN AT 7:00 PM

Be part of a truly magical and special evening as T.H.E. Show presents a line-up of three incredible music artists:

- **Michael Leach** singer/songwriter
- **Emiko** award winning songwriter/composer (and President of T.H.E. Show)
- **Larry Mitchell** Grammy Award winning guitarist, producer, and composer

MEET T.H.E. ARTISTS

EMIKO

Emiko's musical journey began as a toddler, playing piano before her third birthday and performing live soon after. By age 12, she had retired as a classical concert pianist and transitioned to an award-winning career as a singer, songwriter, and composer. In her twenties, Emiko was specially recognized by the Songwriters Hall of Fame and featured in major music publications like *Billboard* and *Keyboard Magazine*. With a catalog of over 3,000 songs, her work spans #1 Pop, Rock, J-Pop, and R&B singles, as well as film and TV scores. As a solo artist, Emiko is known for her proficiency on piano, Hammond organ, and her custom keytar, 'Carlos.' She has shared the stage with legends like Cyndi Lauper and appeared in Major Lazer's music video *Lay Your Head On Me*. Emiko is President of T.H.E. Show, CEO of T.H.E. Enterprises, LLC, and director of the award-winning documentary *T.H.E. Human Side*. Follow her @emikomusic for all things music and at @thathifigirl for all things HiFi.

MIKE LEACH

Mike Leach is a multi-instrumentalist, songwriter, and former music director, with a background in arranging music for larger faith-based events. His musical journey also includes years of performing in bands in various musical roles, most recently as a member of Identity Crisis, a dynamic cover band known for its diverse repertoire. Mike's heart is in music production, which tends to keep him immersed in recording his original music. His work is deeply influenced by rock and alternative artists such as Jeff Buckley, Stone Temple Pilots, Radiohead, Pink Floyd, and Ride. Committed to musical exploration, Mike also produces and releases electronic music under the moniker The Power Flux, a project that delves into a wide range of electronic sub-genres including Synth Pop, House, Ambient, Trip-Hop, Trap, Electronica, and Techno.

Mike also serves as an Official Ambassador for T.H.E. Show and you can follow both his HiFi and musical journeys on Instagram at @punkfloyd4eyes.

LARRY MITCHELL

Grammy-winning guitarist Larry Mitchell has toured globally with Tracy Chapman, Billy Squier, Ric Ocasek, and Miguel Bosé. He holds 26 New Mexico Music Awards across pop, adult contemporary, rap, rock, country, world, and Native American; a 1999 San Diego Music Award (Best Pop/Jazz Artist); and a 2021 Global Music Award for his acoustic release *The Light Within*.

As a producer-engineer he won a Grammy for producing/engineering/performing on *Totemic Flute Chants* by Johnny Whitehorse (Robert Mirabal), and earned New Mexico Music Awards with artists including Dawn Avery, Joy Harjo, and Shelley Morningsong.

In recent years he toured the USA and Australia: 30A Songwriters, Dallas International Guitar Festival; Gympie Muster, Mitchell Creek, OZ Fest, Yowie. He headlined the West Australian Guitar Festival (2019, 2023), opened shows for Steve Vai (2023), and in 2025 returned for 100 Guitars at Brisbane Festival and an independent Fractal Audio night with Brett Garsed, Leon Todd, and Michael Dolce. Larry is currently touring; keep up with him at @larrymitchellsphotos

MEET T.H.E. AMBASSADORS!

T.H.E. Ambassador Program is a year-round initiative. T.H.E. Show launched in 2021 to bring HiFi and audio into the forefront of musical journeys and conversations. Each year, we pick audio enthusiasts and music lovers who are making strides in the world to encourage others to join the quest for an elevated listening experience, inviting them to join the program. As T.H.E. Show continues to grow and develop, so does our Ambassador Program, and we are delighted to introduce you to our six official Ambassadors for our 2025–2026 season.

If you are interested in joining T.H.E. Ambassador Program, please email Sophie Assencoa at Sophie@theshownow.com and include a bit about yourself and your audio journey, and we will be happy to connect with you

Daniel Barbour, aka Bass Therapy, hails from Brazil and brings HiFi, audio, and bass-thumpin' goodness to his ever-growing following on Instagram. He got into audio at the tender age of eight when he realized he had a strong desire to hear music

the best way possible. Ever since Daniel was a kid, he always tried to get the best speakers he could afford, and watching Zeos review audio online, only made Daniel's interest in HiFi grow. As a young adult, Daniel dreamed of the KEF LS50s and when he got them, realizing they sounded as good as the review he saw, his mission was solidified: to bring audio to as many people as possible by sharing his experiences online.

"My favorite thing about music is how you feel with each different track, and now I've experienced million-dollar systems, I don't think I'm close to the middle of my journey in audio but I can't wait to see what the future holds," Daniel exclaims. He is excited to be an ambassador for T.H.E. Show again helping others get into audio. Find Daniel on Instagram at [@bass_therapy_](https://www.instagram.com/bass_therapy_)

Jiles McCoy is a brand and social media marketer who co-founded 1UP SOCIAL, a content creation and marketing firm. He also runs the Home Theater Fanatics social media empire, which focuses on home theater and HiFi gear and content.

Somehow, Jiles still finds time to co-host and co-produce the HiFi Fanatics weekly web series and podcast, featuring top brands and personalities in music, HiFi, and home entertainment. Jiles has experience with consulting, government, Fortune 500, and web-based businesses including Arthur Andersen, American Medical Response, Kingston Electronics, and Envision Healthcare. Currently he leads an innovation team with responsibility over IoT, enterprise security, data center infrastructure, process reengineering, and institutional technology change management.

Jiles earned his B.S. in Computer Science from Troy University and his MBA from the University of Colorado ... where he also lost most of his hair. He's thrilled to return to T.H.E. Show as an official Ambassador for the third year. Notably, Jiles was the very first ambassador when the program launched. You can find him on Instagram at [@hometheaterfanatics](https://www.instagram.com/hometheaterfanatics).

Maritte Green is a math teacher by day, Christian at heart, and audio enthusiast by night. With that combo, you might be wondering how she ended up at T.H.E. Show for the sixth time—and her second year as an ambassador!

When Maritte listens to a system, she listens with her heart. “Being an audio enthusiast doesn’t mean that I know everything about every component. I do want my listening experience to sound right to me. Listening with my heart is one of my passions. And, as an ambassador for T.H.E. Show, I will have opportunities to expand on every one of these passions,” says Maritte when she talks about her journey in audio ... and her ambassadorship with T.H.E. Show. Find Maritte on Instagram at [@mysterious.maritte](#)

Mike Leach is a HiFi enthusiast, musician, and host of HiFi High Five on Instagram and the AMP radio show. A graphic artist by trade, he has also worked as a music director overseeing a large team of musicians, choosing and arranging music

for live events. His passion for music and music creation started at a young age and has turned into a love for high-quality listening experiences. He collects CDs and vinyl; he also enjoys streaming in high-resolution/lossless audio formats. Although he tends to be drawn towards vintage audio gear, that hasn’t stopped him from integrating and searching out modern HiFi equipment to add to his system. Mike also thoroughly loves playing guitar in a local cover band. He is married to his beautiful wife of 26 years, and he has three amazing kids and three fur babies.

When speaking about his ambassadorship with T.H.E. Show, Mike exclaimed, *“I am super excited to be coming on as an official Ambassador for T.H.E. Show! I’m very grateful to have the opportunity to represent and support this fantastic organization!”* Find Mike on Instagram at [@punkfloyd4eyes](#)

Brian Green works in the tech industry by day but clocks out as a moonlighting audiophile. His audio journey began at youth with a music loving family, and a father that loved putting together HiFi systems.

Brian works in the tech industry by day but clocks out as a moonlighting audiophile. His audio journey began in his youth with a music loving family, and a father that loved putting together HiFi systems. Brian picked up the hobby and expanded with personal computer based audio systems, early adopting digital audio and streaming, including high-resolution physical formats such as DVD-Audio. Fast forward to 2018, when he discovered T.H.E. Show. He made instant connections, and now stands as an official T.H.E. Ambassador. You can find him at HiFi shops, audio society events, at home just enjoying the music, and of course at T.H.E. Show. Find Brian on Instagram at [@mentatgom_plus](#)

Scott Lylander is an audiophile, acoustician and engineer specializing in vibration control. Through these avenues, Scott founded Audio Acoustic Engineering and has been growing brand awareness for over two years. In the energy industry,

Scott leads a culture of Identify, Diagnose, and Mitigate, the ingredients of problem-solving. Outside the technical arena, Scott is a passionate advocate of good vibes—an emotional intelligence tool to manage the dynamics of life; when people are down, Scott feels strongly that the audio community can build them up. Music and HiFi are natural ingredients of celebration which can steer our emotions—the human element! Scott has a diploma in mechanical engineering technology from Lambton College in Sarnia, Ontario, Canada, and through ASET has earned a license to practice engineering. Scott has been hands-on in dynamics and problem solving for over 20 years.

For fun, Scott loves to wheelie his bicycle, surf powder, explore with his family of four and engage in the social community. Scott loves pizza too. Find Scott on Instagram at [@audio_acoustic_engineering](#)

studio  reference

INTRODUCING STUDIO REFERENCE SR14 AND SR10 SPEAKERS

Vividly Detailed Sound...With a Gorgeously Retro Look

PBN-DP200

The **Studio Reference 14** (with 14-inch bass drivers) and the **Studio Reference 10** (with 10-inch drivers) pair the highest-rated tweeters and midrange drivers with meticulously rebuilt vintage woofers. The bright white AQP-coated cones give a classy look that provide a dash of retro stylishness. With outstanding linear phase response and hyper-real sensitivity, these speakers embody the PBN brand: *Painstakingly researched and tested, creatively integrated, and stunningly housed in a custom-built chassis.*

PBN EB-SA3

Olympia DX DAC

PBN builds complete, fully integrated audio systems, from pre-amps and amps to custom turntables.
